Commodity Price Hike scenario: geopolitical tensions a persistent risk to commodity prices

## KEY ECONOMIES OUTLOOK

US: economic resilience continues, but growth momentum expected to soften

US: price pressures are easing, reinforcing disinflationary trends

U S: businesses and consumers stay prudent amid a high-cost environment

US: political uncertainty and higher-for-longer interest rates threaten a soft landing

China: flagging consumer demand and property issues dampen economic potential

China: business and consumer sentiment remains subdued amid multiple headwinds

China: trade tensions and real estate downturn are key threats to growth outlook

India: growth prospects improve on robust domestic demand

India: despite economic resilience, global headwinds could slow down India's growth

Japan: weak domestic demand weighs on economic outlook

Japan: global commodity market shocks are some of the major threats

Indonesia: outlook remains robust supported by strong domestic market

Eurozone: economic outlook improves slightly in 2024, yet remains below potential

Eurozone: entrenched core inflation may hinder a faster loosening of monetary policy

Eurozone: potential recession remains the key risk to the Eurozone's economy

UK: economic outlook improves on stronger resilience in consumer spending and investment

UK: global slowdown, Europe's downturn and high inflation are key risks to the outlook

Russia: government and consumer spending support growth, but risks persist

Russia: spillovers from the war, global fragmentation and China's slowdown are major risks

Brazil: impacts of floods, stickier inflation and high borrowing costs dampen momentum

Brazil: a slowdown in foreign markets and a regional crisis could dampen the outlook

Mexico: elevated inflation, high interest rates and political uncertainty are key headwinds

## APPENDIX

Baseline and alternative scenarios: Q3 2024

Alternative scenarios (continued): Q3 2024

Alternative scenarios (continued): Q3 2024

## About Euromonitor International

Euromonitor International is an independent market intelligence provider. Data, insight and analysis stem from in-the-field research spanning 210 national markets.

Content ranges from the in-depth and country-specific, to key strategic themes with a global range and significance. Products cover a comprehensive range of insights and market data, but can be broadly categorised as:

- **Strategy Briefings:** Global or regional in scope, and focussing on the most important themes shaping consumer demand, the key markets, competitive environment and future outlook across a range of industries.
- **Company Profiles:** Analysis dedicated to the world's most significant companies, with detailed insight into their activities, focus of operations, their competitors, their geographic presence and performance.
- **Country Reports:** For an in-depth understanding of specific countries, whether by industry, economic metrics or consumer trends and lifestyles. These reports cover current trends, consumer demand, market potential and future prospects, with country-specific local insight and comprehensive data, unavailable elsewhere.
